

Omar Associates is a leader in providing specialty farm shop repair equipment. The problem of removing an IH/Farmall narrow front end is solved by the Omar Associates Front End Dolly. Used in conjunction with the UFS-40 Splitting Stands, accessing the front of the engine is effortless for a single person.

IH/Farmall Front End Dolly

- Remove front end without a hoist
- Bolster and radiator remain assembled to front end
- Access entire front of engine easily
- Tires can remain assembled on wheels
- Mounts with 2 bolts
- Tee shape with 3 casters maintains stability
